

LASER SCANNING SERVICES

Eliminating Turbine & Facility Upgrade Problems

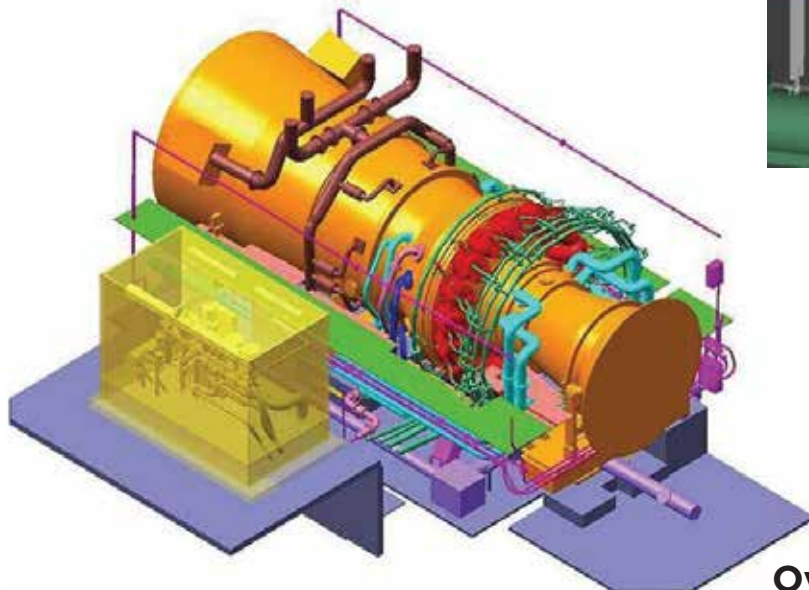

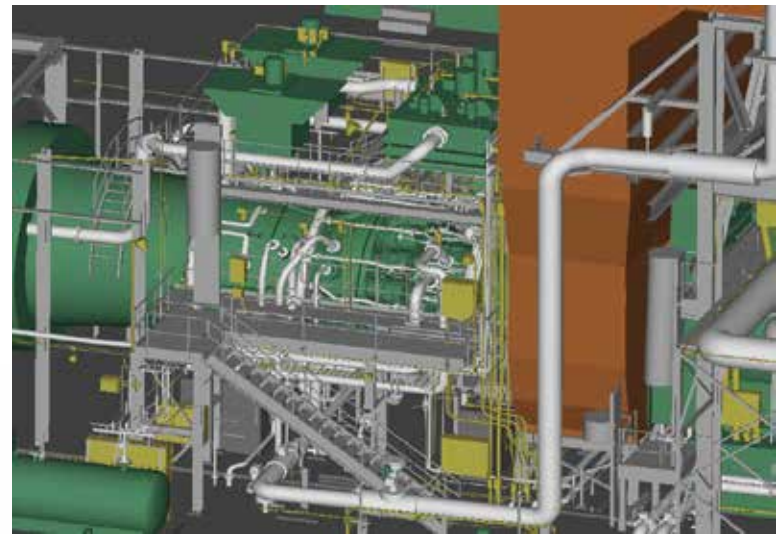

Schedule Overrun | Out Of Date Drawings | Costly Rework

LASER SCAN DATA IS A VIRTUAL REALITY OF YOUR FACILITY

A Laser Scan Survey can deliver an as-built 3D Model of a Facility or Turbine in 21 days. Reducing Design and Fabricating Schedules and Significantly Reducing Costly Rework.

- Data capture takes as little as 1 day.
- Minimal shutdown time for Owner
- Maximum data capture in 3D
- 3D As-Built model produced within 3 weeks
- Accuracy of Survey Data <math><1/8''</math>
- Accuracy of 3D Model $\pm 1/8''$
- Recoup costs by using 3D As-Built

Model for :

- Facility Training
- Safety Training
- Asset Management
- Reduce Insurance Premiums
- Construction Scheduling
- Catastrophic Event Modeling

**Over 100 Turbines Scanned & Modeled
In Over 20 Countries Since 2009**
